## WHOLESALE TRADE LIST

OF THE

# Morrisville Nurseries.

## SAMUEL C. MOON,

### Morrisville, Bucks County, Penna.

**THE MORRISVILLE NURSERIES** are in Bucks County, Pennsylvania, about one mile from Morrisville, a station on the New York Division of the P. R. R., thirty miles from Philadelphia and sixty miles from New York, and two miles from Trenton, New Jersey. Carriages can always be obtained from the stations in Trenton. To get to the Nursery from Trenton, cross the Delaware river over the lower iron bridge and keep straight out one and a half miles west, on the Fallsington road.

**THROUGH FREIGHT RATES** from Trenton to all principal cities north, south, east and west, via Pennsylvania, Reading or Lehigh Valley Railroads. Also, water transportation to Philadelphia and New York. All goods will be delivered to the railroad or steamboat in good condition, after which they are entirely at the risk of the purchaser. Should any loss or delay occur to goods in transit, the forwarding company alone must be held accountable and responsible.

**ALL CLAIMS** for errors or deductions must be made immediately upon receipt of goods.

**TERMS CASH,** unless by special agreement. I can ship by express, C. O. D., when desired, with charges for collection added to bill.

Address all orders and communications to

**SAMUEL C. MOON,**
**Morrisville, Bucks County, Penna.**

| " 5 to 6 ft | 1 50 | 10 00 |
| " 7 to 9 ft | 2 50 | 20 00 |
| CERCIDIPHYLLUM Japonicum, 4 to 6 feet | 10 00 | |
| ELM, American, 4 to 6 ft | 1 00 | 8 00 |
| " 10 to 12 ft | 5 00 | 40 00 |
| Scotch, 14 to 16 ft., 2 to 3 in. caliper | 15 00 | |
| Purple-leaved, 8 ft | 7 50 | |
| Golden-leaved (*Ulmus Dampierii aurea*), 4 to 5 ft | 20 00 | |
| Silver-leaved, Variegated, 10 to 12 ft | 15 00 | |

These two fancy-leaved Elms are recent introductions of high merit. The foliage of Dampierii aurea is very conspicuously of a bright, yellowish hue; the leaves of the variegated variety are very prettily and distinctly marbled and veined with white and silvery markings. They both retain their distinctive colorings with more than usual constancy throughout the summer, and are likely to become as indispensable as the Purple Beech for producing fine foliage effects in ornamental planting.

## LARGE TREES.

I have some extra-fine, large specimens of each of the following varieties. These trees have been frequently transplanted and root-pruned, and are kept in proper condition for moving. They are growing on land with a clay subsoil, and will hold good balls of earth, and can be safely shipped almost any distance. I can refer to several examples of successful transplanting of large trees to private grounds in and about Philadelphia. Shall be glad to receive visits or correspondence from those who have use for such stock:

**Abies Orientalis** and **Inverta**; **Picea Nordmanniana, Pectinata, Cephalonica, Pichta** and **Nobilis**; **Thuya Geo. Peabody**; **Retinospora Plumosa, Aurea, Squarrosa Veitchii**; **Sugar Maples**; **Purple Beech**; **Magnolia Soulangeana** and **Norbertiana**; and many other choice and rare specimens. Sizes, description and prices given on application.
